RAY JOLLY LINE

The range of one-way accessories for connecting or branching cables with terminals 450V or 0.6/1 kV

Ray Jolly Line are ready to use and very quick to install. They are supplied complete with pre-cross-linked silicone sealant gel, to ensure maximum insulation and sealing in the presence of water. Always re-opening and inspectable.

Ray Jolly Line are made of POLYPROPYLENE, a chemically resistant and 100% recyclable material and pre-filled with a highly sealing and insulating VISCOELASTIC GEL compliant with the REACH regulation and free of substances classified as hazardous according to the current CLP legislation.

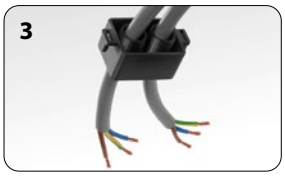

ADVANTAGES

- **Thanks to their compact design and degree of protection, they can be installed directly outdoors without junction boxes.**
- **Perfect for both straight and branch connections.**
- **Resistant to mold and UV rays.**
- **Compliant with EN 50393 as applicable.**
- **No shelf life.**
- **Halogen-Free Gel.**

Electrical performance:
- **CEI EN 50393** as applicable
- **Class 2** in accordance with **CEI 64-8.**

Gel: UL 94-HB

Working temperature: 90°C

Installation temperature: -40°C / +50°C

Fully submersible

Can be used underground

Halogen-free Gel

UV resistant

Self-extinguishing and resistant to abnormal heat and fire:
UL 94-V2

IP68 OFFICIALLY TESTED | IMQ
